- **Hydro 2C Flexprimer 5719 (monolayer)**

Dear Dr. Schlosser,

The products mentioned above are regularly tested by us for their migration behavior. After entirely cured and aired, no transfer of substances could be detected in amounts which limit the compliance with the demands of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, lastly modified by article 5 of the Regulation (EU) 2019/1381 of 20 June 2019, Official Journal of the European Union L 231/1 of 6 September 2019, article 3, 1. (a) and (b),

as well as of the requirements of the

Code of Federal Regulations, Food and Drugs (FDA), 21 CFR Ch. I (April 1, 2021 edition).

Here, exclusively the intended purpose of the coating of machines used in the field of the preparation of dry, non-fatty foodstuffs, was considered.

Best regards

**ISEGA**
